

# **Euromix™ Cream Render MSDS**

Material Safety Data Sheet

This product is classified as hazardous according to the Safe Work Australia and NOHSC guidelines.

## 1. IDENTIFICATION OF MATERIAL AND SUPPLIER

Product Name Euromix™ Cream Render

Product Code RENCREAM

Material Use Pre-blended, acrylic modified, cement based

render that is suitable for decorative rendering and patching over most substrates for interior and exterior use. Applied by hand or machine in layers ranging from 2mm to 10mm at a

time, depending on type.

Appearance Before mixing with water the material appears

as a light grey or off-white blend of finely ground sand and powders with diameter <

1.0mm.

Supplier Euroset Trading Pty Ltd

#### 2. HAZARD IDENTIFICATION

Dangerous Goods Class/Subsidiary Risk

Hazchem Code

Poisons Schedule Number

None allocated

None allocated

## 3. MATERIAL COMPOSITION

Chemical Name	CAS number	Proportion
Portland Cement	65997-15-1	>20%
Hydrated Lime (Ca[OH] <sup>2</sup> )	1305-62-0	>5%
Crystaline Silica (Sio <sup>2</sup> )	14808-60-7	>75%
Hexavalent Chromium	18540-29-9	<2ppm
Emulsifiers	9004-65-3	<0.3%

## 4. FIRST AID

Swallowed Rinse mouth and lips with water. Do not induce

vomiting. Give plenty of water to drink to dilute stomach contents. If symptoms persist seek medical attention or contact the Poisons information Service (phone; 131 126).

Eyes Flush thoroughly with flowing water for at least 15 minutes. Seek urgent medical attention.

Skin Wash thoroughly with water.

Inhaled Remove from dusty area to fresh air. If symptoms persist, seek medical attention.

### 5. FIRE FIGHTING MEASURES

Specific Hazards Non-combustible material

Fire Fighting Advice Non-combustible material

Extinguishing Media Non-combustible material

#### 6. ACCIDENTAL RELEASE MEASURES

collecting the material (use mechanical ventilation or extraction where available) by damp sweeping or vacuuming. Can be slippery when wet. Collect in containers and dispose of as trade waste in accordance with site and local authority guidelines. Keep out of sewer and

storm water drains.

Wet Spills Slippery when wet. Clean up immediately -

Collect in containers and dispose of as trade waste in accordance with the site and local authority guidelines. Keep out of sewer or

storm water drains.

## 7. HANDLING AND STORAGE

Handling Euromix® Render is supplied in 20 kg bags –

recognized local safe lifting methods should be

used

Avoid repeated skin contact with both the dry

powder and the wet mixture.

Storage / Drivers of trucks and forklifts transporting

Transport Euromix® Render should ensure that the sacks

are properly restrained.

Store off the floor, in a dry place and in the

original bags.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Chemical Name NOHSC Exposure Standards

Portland Cement 10 mg/m³

Hydrated Lime (Ca[OH]<sup>2</sup>) 5 mg/m<sup>3</sup> (8h TWA)

Crystalline Silica (Sio<sup>2</sup>)  $0.2 \text{ mg/m}^3$ Hexavalent Chromium  $0.05 \text{ mg/m}^3$ Emulsifiers  $10 \text{ mg/m}^3$ 

Keep exposure to dust as low as possible, to minimise health problems such as skin, eye and respiratory irritation. Avoid repeated skin contact with both the dry and the wet mixtures.

Carry out work in such a way to minimise the exposure to dust and repeated skin contact. Use mechanical ventilation or extraction to minimize exposure where dust will be generated whilst handling the render. Work areas should be cleaned regularly by wet sweeping or vacuuming.

If preparation of the substrate to be rendered requires cutting or grinding of masonry then ensure that goggles, respirators and hearing protection are available and that they are worn.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

Boiling Point / Melting Point N/A

Vapour Pressure N/A

Specific Gravity Average SG approximately 2.7

Bulk Density 1500 to 1700 kg/m<sup>3</sup>

Flashpoint N/A Flammability Limits N/A

Calubility in Mater. Cliebt bandons on mi

Solubility in Water Slight, hardens on mixing with water

Particle Size < 2 mm

pH Approximately 12

#### 10. STABILITY AND REACTIVITY

Considered inert in powdered and solid state. Material will set when mixed with water and then allowed to dry.

### 11. TOXICOLOGICAL INFORMATION

Ingestion May cause burning sensation and abdominal

discomfort. Corrosive to mouth and throat. If ingested rinse mouth and lips with water. Do not induce vomiting. Ingest water to dilute stomach contents. If symptoms persist, seek

medical attention.

Eye Contact Irritating and corrosive to eyes. May cause

chemical conjunctivitis, redness and watering of

eyes with damage to cornea.

If affected flush eyes thoroughly with flowing water for at least 15 minutes. Seek urgent

medical attention.

Skin Contact Prolonged and repeated skin contact with wet

mortar may cause both irritant dermatitis and allergic (contact) dermatitis. The latter is due to the presence of traces of water-soluble

hexavalent chromium in cement.

To help prevent dermatitis workers should apply barrier cream before commencing work.

If exposed to dust on skin wash thoroughly with

water – a shower may be required.

Inhalation Inhalation of dust through prolonged, repeated exposure can cause bronchitis, silicosis (scaring

of the lung) It may also increase the risk of scleroderma (a disease affecting the connective tissue of the skin, joints, blood vessels and

internal organs) and lung cancer.  $\,$ 

Epidemiological studies have shown that smoking increases the risk of bronchitis silicosis

(scaring of the lung) and lung cancer.

If affected by inhaled dust, remove the operator from the dusty area to fresh air. If symptoms

persist, seek medical attention.

Chronic Health Long term exposure to high dust concentrations

Effects may cause deterioration in lung function.

may cause deterioration in lung function. Exposure to the material in both the powder and wet state can cause an allergic form of

dermatitis in sensitised users.

Date of Issue: July 2020

## 12. ECOLOGICAL INFORMATION

Collect dust and waste in containers and dispose of as trade waste in accordance with local authority guidelines. Do not dispose of in sewer and storm water drains.

#### 13. DISPOSAL CONSIDERATIONS

No special requirements - Refer to Waste Management Authority and building site Management for local disposal guidelines.

#### 14. TRANSPORT INFORMATION

Road and Rail Not classified as Dangerous Goods by the

criteria of the Australian Dangerous Goods Code

(ADG Code).

Marine Not classified as Dangerous Goods by the

criteria of the International Maritime Dangerous

Goods Code (IMDG Code).

Air Not classified as Dangerous Goods by the

criteria of the International Air Transport Association (IATA) Dangerous Goods Regulation.

### 15. REGULATORY INFORMATION

The International Agency for research on cancer (IARC) has classified "Crystalline Silica" (Quartz or Cristobalite) As a Group 1 – Confirmed Human Carcinogen.

Studies have shown that smoking increases the risk of occupational respiratory diseases including those associated with exposure to crystalline silica. It is recommended that all storage and work areas should be smoke-free zones.

## 16. OTHER INFORMATION

This MSDS summarises to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. Users are advised to make their own determination as to the suitability of this information in relation to their particular purposes and specific circumstances.

Users must, prior to usage, assess and control the risks arising from its use of the material as Euroset Trading cannot anticipate or control the conditions under which the product may be used.

The information herein is given in good faith, but subject to the Trade Practices Act 1974, no warranty, expressed or implied is made.

For further information users should contact Euroset, via the contact details listed in Section 1 on Page 1 of this MSDS.
