

Laminex®

Architectural Panels

Ceilings

A different way to do ceilings.

Laminex Architectural Ceiling Panels are a range of prefinished ceiling panels and tiles designed to make an impact wherever they are used.

The range features a selection of popular Laminex woodgrain décors in three linear profiles, bringing textural interest and the warmth of timber to any space.

Ideal for both retrofit and new ceiling systems, this collection of tiles and panels offers direct fix or suspended ceiling options suitable for a range of projects.

The large-format panels feature unique, removable tongue-and-groove joints, enabling a variety of panel layouts for versatile design possibilities.

Laminex® Architectural Ceiling Panels

Seamless design and colour integration

Laminex Architectural Ceiling Panels and Tiles have been created using a selection of realistic woodgrain décors from the Laminex Colour Collection, available in Batten and VGroove profiles to ensuring seamless integration throughout your next project.

Design flexibility

A premium ceiling solution offering creative freedom: from how the panels are fixed to how the joins are displayed. These systems are designed to seamlessly retrofit into existing structures, making them highly adaptable for various design needs.

Designed for standard systems

A design-led solution to elevate your next project in a room with a suspended grid system. This flexible solution will transform commercial ceilings quickly and easily providing installation options for:

- Drop in on suspension systems that uses a ceiling hanger or suspended rod
- Direct fix to suspended systems fixated to primary rail or top cross rail
- Direct fix to battens or furring channels

Profiles

Batten 40

Batten 60

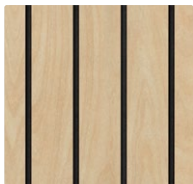

VGroove 100

Décors are accented with a Black Shadowline. Laminex Sublime Teak Ceiling Panels are also available with a Natural Shadowline.

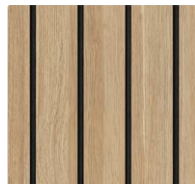

Ceiling Panels are provided as a 2 panel pack. Ceiling Tiles are provided as a 5 tile pack.

Suitable for internal and interior enclosed alfresco application (see technical documentation).
