Laminex®

Architectural Panels

Walls

A different way to do walls.

Designed and made in Australia, Laminex Architectural Wall Panels provide the warmth of timber along with seamless décor and colour integration.

Laminex Architectural Wall Panels have been created using a wide selection of realistic woodgrain décors from the Laminex Colour Collection, available in Batten, Planked and Flat profiles to ensure seamless integration throughout your next project.

This range of prefinished wall panels uses our unique InvisiLock™ joining system, allowing each panel to be connected seamlessly. Fast and efficient installation make them the ideal choice for whole room and feature walls.

Laminex® Architectural Wall Panels

The InvisiLock™ system

The InvisiLock™ joining system is exclusive to the Laminex Architectural Wall Panel range, allowing each panel to be connected seamlessly, providing a bow and gap-free finish and minimising installation time.

Designed to last

This is a durable wall solution made from decorated MDF, designed to withstand the wear and tear of commercial environments.

Smarter, faster installation

Our unique Batten and VGroove wall panels can be installed 3x faster than individual battens, providing a cost-effective solution for commercial and residential interiors using only standard tools and fixings. The refined Classic Flat Profile offers a modern reversible panel allowing you to choose between a 1mm pencil line joint or a 7mm express joint.

Profiles

Classic Flat AbosluteGrain®

Batten 40

Batten 60

VGroove 100

Not all décors available in all profiles.

Décors are accented with a Black Shadowline. Laminex Sublime Teak and Laminex Tasmanian Oak TrueScale™ are also available with a Natural Shadowline.

Batten and VGroove supplied as 2 panel pack, Classic Flat supplied as single sheet.
